---

---

---

---

---

---

---

## Mental Health and Mental Illness – Importance

- Great day-to-day relationships are the heart of de-escalation
- Know what is normal
- Signs resident is becoming agitated

DHSR/HCPRI/CARE NAT 1 Curriculum - July 2013

4

---

---

---

---

---

---

---

---

## Mental Health and Mental Illness – Nurse Aide’s Role

Important for nurse aide to recognize inappropriate behavior:

- Report to nurse
- De-escalate behaviors

This behavior is not normal for Mr. Johnson. I need to tell the nurse.

Nurse aide has many chances to observe to know resident

DHSR/HCPRI/CARE NAT 1 Curriculum - July 2013

5

---

---

---

---

---

---

---

---

## De-escalation of a Resident Who is Agitated – Nurse Aide’s Role

First and only objective in de-escalation is to reduce level and intensity of resident behavior so that discussion becomes possible

DHSR/HCPRI/CARE NAT 1 Curriculum - July 2013

6

---

---

---

---

---

---

---

---

**De-escalation of a Resident Who is Agitated – Nurse Aide’s Role**

- Behavior
- Posture
- Position self for safety
- Body movement and language
- Facial expression
- Eye contact

---

---

---

---

---

---

---

---

**De-escalation of a Resident Who is Agitated – Nurse Aide’s Role**

- Attitude
- Tone
- Responses
- Reasoning

---

---

---

---

---

---

---

---

**De-escalation of a Resident Who is Agitated – Nurse Aide’s Role**

Trust instincts – if de-escalation is not working, the nurse aide should STOP and calmly call for help

---

---

---

---

---

---

---

---

## De-escalation of a Resident Who is Cognitively Impaired – Nurse Aide’s Role

- Control the environment
- Look for meaning of the behavior
- Check for underlying causes
- Respond in person’s reality

---

---

---

---

---

---

---

---

## Points to Remember

- Residents are more than a diagnosis
- Recognize that a person with a mental illness is an individual

**Mrs. Jane Smith** is 73 years old, has 3 children and used to teach school.

**Mr. John James** is 60 years old, has 2 children and used to build houses.

- Each resident diagnosed with a mental illness is different from other residents with same diagnosis

---

---

---

---

---

---

---

---

## Points to Remember

All behavior has meaning – looking for the meaning behind the behavior is key

---

---

---

---

---

---

---

---

**Mental Health and Mental Illness – Points to Remember**

When unusual or inappropriate behavior escalates resident may be a danger

- Nursing care plan includes specific details
- Important tool is de-escalation

Great day-to-day relationships are at the heart of de-escalation

DHSR/HCP/CARE NAT I Curriculum - July 2013 13

---

---

---

---

---

---

---

---

**The End**
