

Adult Care Homes-FL2s

Individuals seeking admission into Adult Care Homes licensed under G.S 131D-2.4 are **not** required to use the revised DMA Long Term Care FL2 added to the CSC/NCTracks System on July 1, 2013. Because Medicaid does not reimburse for the adult care home level of care, FL2s are not processed through the CSC/NCTracks System.

Beneficiaries should continue to follow the process set forth by the North Carolina Division of Aging and Adult Services (DAAS) for the State-County Special Assistance Program and providers should continue to follow requirements of the Adult Care Home Licensure Section, Division of Health Service Regulation for licensure requirements related to the FL-2.

The FL-2 will continue to be utilized to determine eligibility for Special Assistance for individuals in residential facilities and for the Special Assistance In-Home Program. A copy of the FL-2 for Adult Care Homes licensed under G.S.131D-2.4. and for the use of Special Assistance applicants/beneficiaries will be posted in the forms section on the DMA website (www.ncdhhs.gov/dma/provider/forms.htm) under the heading “Adult Care Homes.”
