Based on observations, record reviews and interviews the facility failed to assure an immediate referral was made for a significant change in 1 of 2 sampled residents (Resident #1) that posed an immediate risk to the health and safety of residents resulting in the death of a resident (Resident #2.).

The findings are:

Interview with Staff B on 12/29/2015 at 12:05 pm revealed:

- In the early morning hours on 12/29/15 at 2:00am he heard screaming, went to the room, and noticed the lights were off, so he turned the lights on. He observed Resident #2. lying on the floor next to the chair face down.
- Resident #2. did not respond and he noticed 3 spots of blood on her back.
- He stated Resident #1 was standing next to Resident #2, she (Resident #1) was holding something behind her back.

Interview on 12/29/15 at 12:05pm with the Administrator revealed:

- "I should have seen it, I should have seen it. I should have seen she wasn't handling it."
- In the past Resident #1 had been hospitalized during this time of year for depression and "acting out", (agitation, anxiety).
- The last 3 years Resident #1 had not been hospitalized, as she had no signs of depression or "acting out".

Review of Resident #1's current FL2 dated 2/10/15 revealed:

- Resident #1 was admitted on 10/12/07.
- Diagnoses included paranoid schizophrenia, bi-polar disorder, diabetes mellitus type 2, hypertension, hyperlipidemia, and
