- She did not know the physician had not been contacted by staff for the other two episodes of behaviors and hospitalization with Resident #6 on 3/26/16.

Interview on 5/19/16 at 1:50 p.m. with Resident #6's physician revealed:

- The physician did not know about the resident not being involuntary committed on the morning of 3/26/16 after staff from the facility had called her.
- She did not know about the third incident in the early morning within the 2 days on 3/27/16.
- She was not aware the resident had been hypothermic with a temperature of 93.7 when the emergency services checked him outside that morning.
- The ED looked up on an internet site and said it was between 35 and 40 degrees F. temperature the morning on 3/27/16.
- The physician said it would be difficult to assess how long it would have taken the resident to drop his temperature to that level.
