D 074	Continued From page 2 Observations of the facility on 6/1/16 and 6/2/16 revealed: -In the common bathroom on the left across from the dining room entrance on the middle hallway, the caulking around the handwashing sink was discolored, chipped and pulling away from the sink. The exhaust fan cover had a visible layer of dust. -There was a broken cover plate on the 2-plug outlet on the front hall wall to the left of the medication room/office. -In the dining room on the outside facing wall, to the right, the baseboard heater cover was dislodged and hanging down. The eight fluorescent lamp safety sleeves showed a layer of dust along the top of the bulb. -The handrails on the stairs going to the upstairs resident area were rough to the touch, areas of chipped or missing paint and one section had been pushed inward towards the wall (appeared someone may have bumped into the railing and dislodged it). -In the upstairs common bathroom accessed from the living room there was a substance that appeared to be mold or dirt on the caulk around the bathtub and the area where the shower door was attached to the tub. The ceiling exhaust fan was hanging loose on one side. The clear plastic shower safety mat appeared to have a rust colored water stain. -In the upstairs porch smoking area there were 11 kitchen type chairs. All of the chairs seats were torn, exposing the padding material. There was a damaged 3-drawer bedside table on the porch outside of the door leading to the smoking area. There was a living room type upholstered chair that was stained and torn from use over most of the upholstering. -In the upstairs common bathroom between	D 074	and is cleaned daily The fan that has been hanging loose has been tightened in bathroom upstairs The furniture on upstairs porch will be replaced with proper outdoor furniture Any furnishings that are upholstered will be evaluated for cleanliness and cleaned as needed. If upholstering is torn we will make arrangements have recovered or removed unless it is a personal item of the resident	7/8/16 7/31/16 8/31/16

D 074	Continued From page 3 rooms 27 and 29 there was a brown substance on the wall behind the toilet paper dispenser. The linoleum floor where it met the walls and bathtub was curled-up and pulled away from the floor. Along the base of the handwashing sink vanity, the baseboard molding was pulled away from the vanity and paint was chipped on the side of the vanity. The clear plastic shower safety mat appeared to have a rust colored water stain. The exhaust fan cover was rusted. -The fluorescent light cover on the upstairs hallway adjacent to rooms 24 and 25 was missing. -In room 27 the baseboard heater cover was hanging loose and dislodged. There were hairline cracks in the floor tile in the center of the room. The arm rests, back and seat cushion of the upholstered living room chair was stained and dirty from use. -In room 25, the arm rests and seat cushion of the upholstered living room chair was stained and dirty from use. -The baseboard heater cover between rooms 17 and 18 was dislodged. -In the common bathroom on the middle hallway next to room 15, the cover plate over the 2-prong outlet was bent almost in half and protruded out from the wall. -The safety handrail on the wall next to the commode in the shower room across from the dining room in the middle hallway was loose. The porcelain/ceramic corners of the handwashing sink were chipped, scuffed and worn. Observation of Personal Care Aide (PCA) on 6/1/16 at 11:00am revealed staff cleaned the brown substance on the wall behind the toilet paper dispenser in the upstairs common bathroom between rooms 27 and 29.	D 074	Kitchen staff has begun giving Knives with place settings to all residents - We have instructed Kitchen staff to provide seconds to residents who request them at the time requested.	6-6-16 6-6-16
